Creating an Account with Facebook

Sign in with your current Facebook account by entering you email and password.

After signing in, it will ask you for permission to access information from your Facebook account.

The next screen will ask for your first and last name as well as an email.

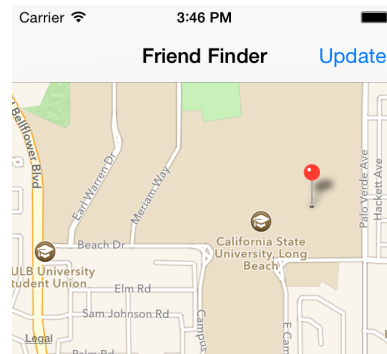

On the final screen, the application will recommend friends to add. After this step, you are now ready to find your friends on campus.

Using the app

Home

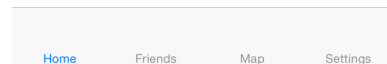

On the home screen, you are able to look on the map and see where you are currently located on the CSULB campus. You can also navigate between your friend's list, the map, and general settings. Just click on any of the tabs on the bottom of the screen to go wherever you desire.

Name: Nick Colburn

Status: Where is everyone?

Updated 2 minutes ago

Using the app

Friends

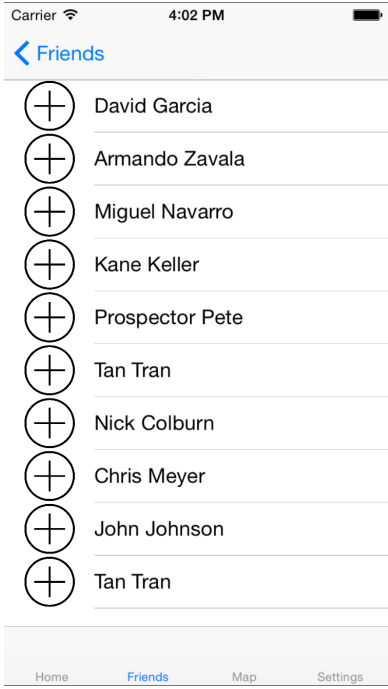

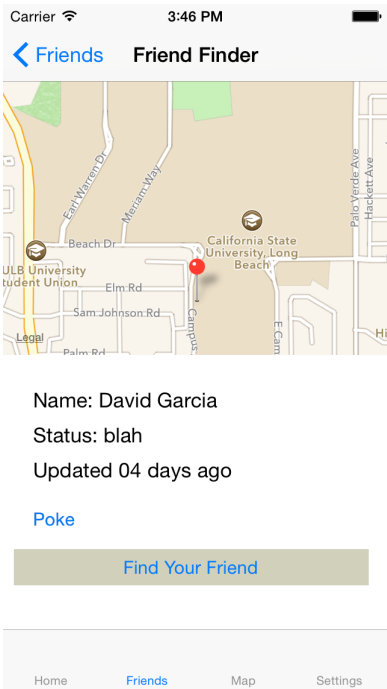

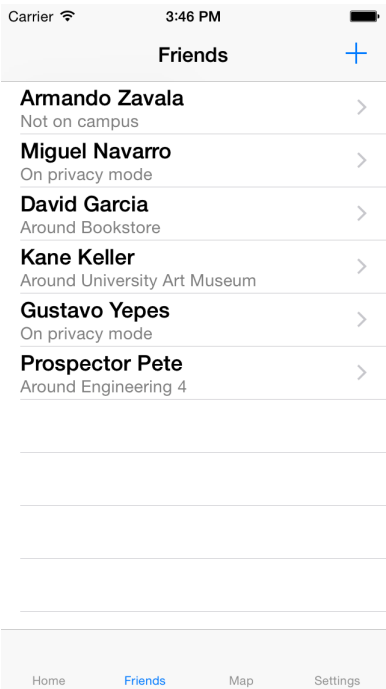

You can go to your friends list and see all of your current friends.

You can also go to your friend's profile and check on their status throughout the day.

When you click on the **+** you will be taken to a screen where you can add friends and share information with each other.

Using the app

Friends (cont.)

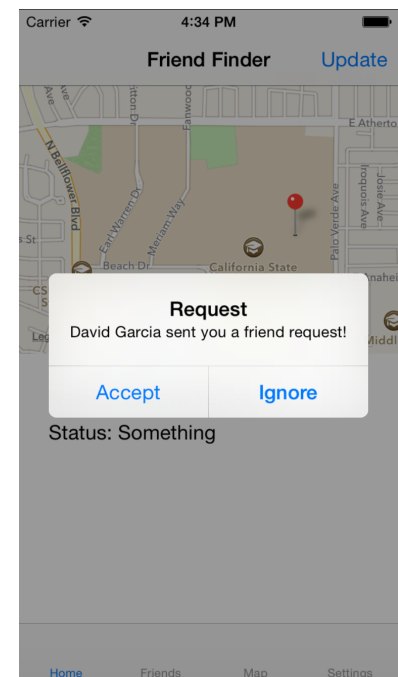

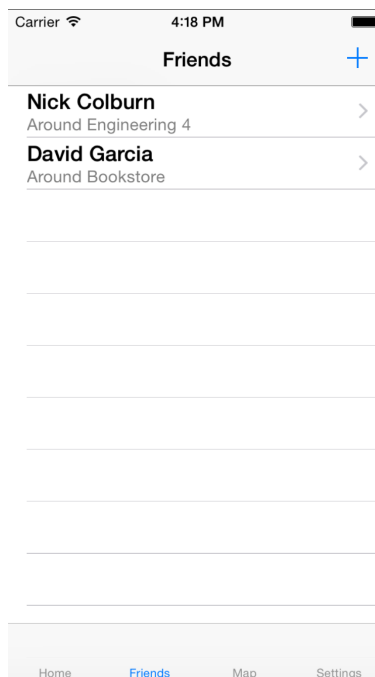

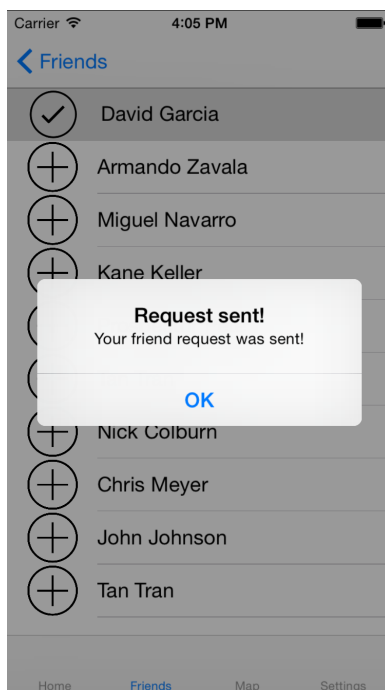

After adding your friends, an alert will appear, acknowledging that a friend request has been sent to your friend.

Once your friend has accepted your request, your friend will appear on your friends list.

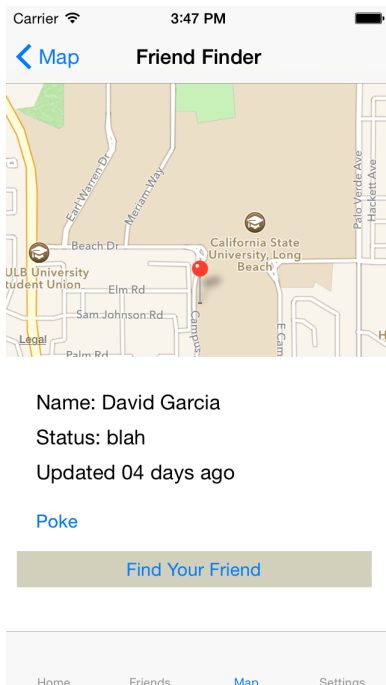

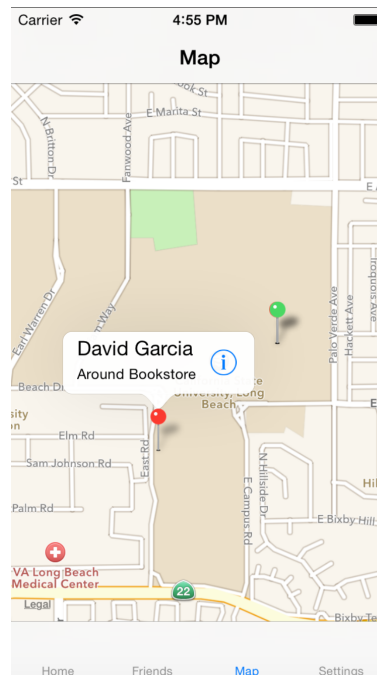

You can also receive friend requests from others and can decide whether to accept or ignore the request.

Using the app

Map

On the Map tab, you are able to view where your friends are on campus. The green pin represents your location.

You can also click on the “i” to view your friend’s profile, straight from the map.

Using the app

Settings

The settings tab allows the user to change your privacy settings, password, or email address. You can also log out from the application.

To change your current password, the app will ask you to enter your old password. You are then asked to enter a new one password and confirm it.

To change your email, the app will ask to confirm your old email and to input the new email you desire.
